ABOUT OUR PROGRAM

COURSE OVERVIEW

MdLanguage: English for Health Professionals (Intermediate Level) is an online, asynchronous English as a Second Language course, specifically designed to develop communication skills for doctors, nurses, physiotherapists, nutritionists, medical technologists, pharmaceutical chemists, medical students, and others in their daily professional and academic activities within international environments. This course targets students with an English proficiency level equivalent to at least A2, according to the Common European Framework of Reference for Languages (CEFR).

The comprehensive program requires 48 hours of commitment, which can be completed at your own pace within a flexible timeframe of 3 months to a year. Upon successful completion, participants will receive a certificate that not only showcases the skills acquired but also serves as a testament to their dedication to professional growth and communication excellence in the healthcare industry.

- Comprehensive and Unique Medical English Curriculum
- Innovative Teaching Methods
- Flexible Learning Experience
- Goal Oriented Approach
- Transparent and Diverse Pricing and Enrollment Options.

OUR COMPANY

MDLANGUAGE

As a language school established in Chile in 2011, we are committed to providing innovative and effective communication solutions for healthcare professionals working or studying in international settings where English is the primary language. Our offerings include tailored private and open courses, along with high-quality writing and translation services for scientific and academic purposes.

MEET THE DEVELOPERS

Alejandro Fuentes

Alejandro is an experienced English as a foreign language instructor specializing in technology-assisted language acquisition. As a pioneer in teaching English in Virtual Reality environments, he brings a unique and innovative approach to language education. When he's not teaching, Alejandro enjoys science fiction and expressing his creativity through drawing.

Iris Mora

Iris is a dedicated English teacher for primary and secondary education with a Master's degree in higher education. As an official Cambridge Examiner, she brings a wealth of expertise to course development and language acquisition methodologies. Iris is passionate about traveling and unwinding with knitting and crochet in her free time.

Among our esteemed clientele and partners we are proud to include respected academic and healthcare organizations such as:

University of La Frontera,
Temuco, Chile

Catholic University of
Temuco, Chile

UNIVERSIDAD
CATÓLICA DE
TEMUCO

National University of
Caaguazú, Paraguay

Greenhouse School,
Temuco, Chile

Medical Association of Chile
(COLMED)

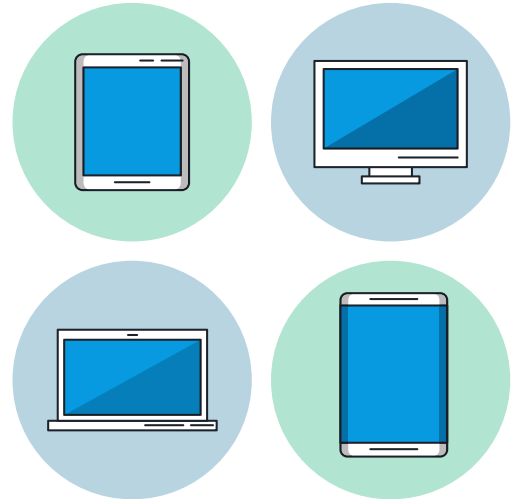

COLEGIO MÉDICO
DE CHILE A.G.

Our platform ensures an exceptional user experience, featuring excellent video quality, great sound, and effortless navigation. Specifically designed for busy health professionals, our program offers a dynamic and flexible learning experience

with engaging video lessons and interactive activities that typically take just 10 to 30 minutes to complete. Accessible from any internet-connected device—be it a computer, smartphone, or mobile device—our platform allows you to make the most of your breaks or downtime during the workday to progress through the course and enhance your communication skills in the healthcare industry and academia.

- Available for PC, Mac, iOS and Android devices

EXPERIENCE OUR CUTTING-EDGE TEACHING APPROACH

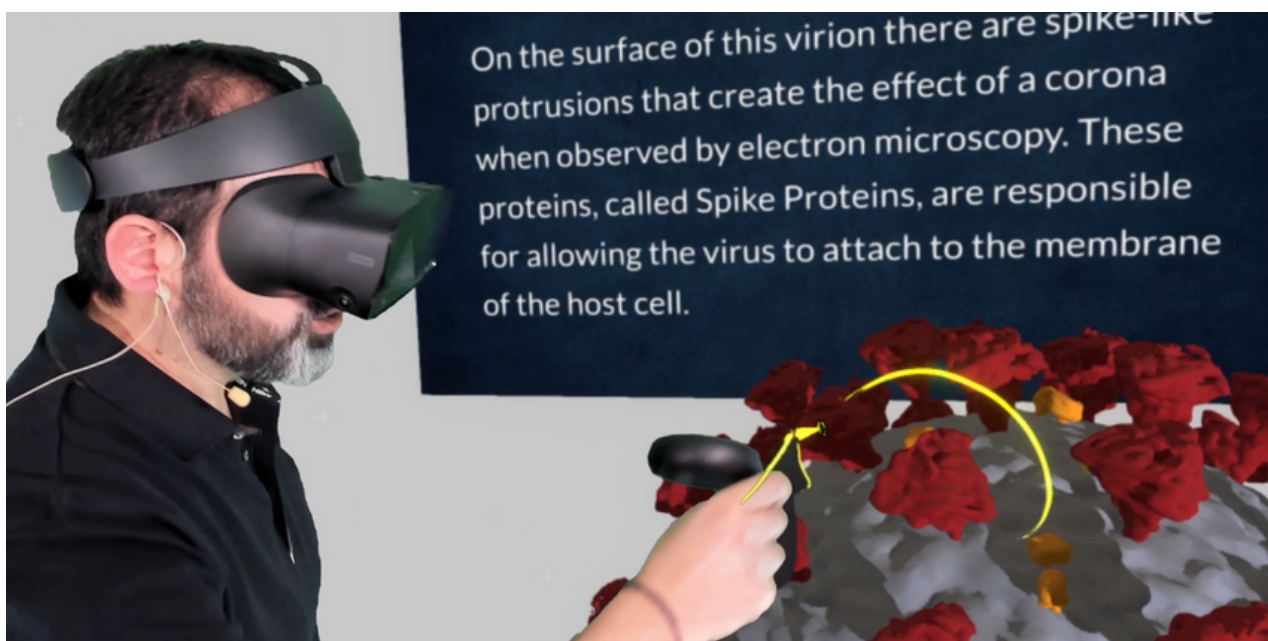

TECHNOLOGY-ASSISTED LANGUAGE LEARNING

At **MdLanguage**, we pride ourselves on offering an immersive learning experience, utilizing state-of-the-art pedagogical tools to teach essential grammar concepts and expand your professional vocabulary. Our innovative teaching methods incorporate the latest audiovisual technologies, such as mixed reality and real-time 3D animation, to ensure a truly engaging experience for healthcare professionals.

Our goal-oriented teaching methodologies are designed to adapt to the unique learning requirements of each lesson. We understand that you may already possess technical vocabulary related to your profession; our program builds on this foun-

ation without necessitating extensive prior formal English training. If you can comprehend these sentences, you'll have no trouble following our course content.

In contrast to many specialized English language programs on the market, **MdLanguage** values total transparency in our teaching style, methodology, and pricing. We invite you to explore our sample lessons, practice activities, and payment/subscription options on our website and social media channels, equipping you with all the information you need to determine if our program is the perfect fit for your needs.

This comprehensive tour will equip you with the knowledge and confidence to navigate our state-of-the-art learning environment with ease.

FREQUENTLY ASKED QUESTIONS

What are the requirements to enroll in the course?

Students must be at least 18 years old, and it is recommended that they work professionally in healthcare services, are performing scientific research in the field, or are currently studying to become health professionals or researchers.

Students are expected to have a genuine interest in learning and advancing their level of professional English proficiency, and have an excellent willingness to receive instruction and practice using innovative language teaching techniques assisted by technology.

We recommend a minimum A2 level according to the Common European Framework of Reference for Languages for taking this course. Students also need to have basic computer and internet skills to make the best use of our learning platform.

What are the technical requirements of my device?

To access the learning environment, you can use any computer (PC or Mac), tablet, or smartphone (iOS or Android) connected to the Internet, with a connection fast enough to view videos like those on this site.

You also need to have an active email account, as it will correspond to your identification in our system and our official means of communication.

Do you provide a certificate upon completion of the course?

Yes. We provide a digital certificate when the student completes all the contents of the program. This document attests to the new skills achieved by the student upon completion of the program.

IMPORTANT: Please note that we are a private company with no affiliation to academic institutions, so our certificates do not provide academic credits of any kind and cannot be officially presented to institutions of higher education.

If you need certification for studies at foreign universities, check our section on Preparation for International English Certifications.

Does the course include in-person classes?

The program primarily consists of pre-recorded video lessons and interactive activities that can be reviewed at any time so that students can follow the program at their own pace at their convenience. The program also includes special instances of live classes (via streaming). The date and time of these events will be duly informed. However, if the student cannot attend, such lessons will always be recorded on the platform.

Is there a recurring payment?

If you purchase the course in the "one-time payment" mode, the answer is no. There will be no additional charges from us. A single payment will give you access to the entire course. If you purchase your course in our "Monthly Installments" mode, we will make 6 equal charges (one each month), which will be charged to the dollar account of your credit card via Paypal. Once the payment for the sixth installment has been made, no more charges associated with the course will be made.

How long do I have access to the course materials?

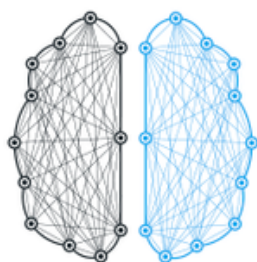

You will have guaranteed access to the course contents for a whole year. Although we strive to provide lifetime access and continuous improvement of our program, for the moment we can only guarantee access for one year for technical reasons.

Will I receive support or guidance during the course?

Yes. Throughout the course, you will have access to direct communication with the instructor via a built-in text messaging system on the platform. Don't hesitate to contact the teacher if you have any doubts, comments or suggestions.

Are the course materials updated regularly?

Certainly, we are committed to keeping our course materials up-to-date. We regularly update our content to ensure it remains relevant, whether in terms of subject matter or the incorporation of new technologies to enhance the learning experience.
